EDUCATION

Computer Science
Georgian-American University

09/2022 - Present   *Rustavi,Goergia*

PERSONAL PROJECTS

Weather Application (09/2024 - 10/2024)
- I developed a Weather App using React that fetches real-time weather data from an API.

Blog Website (09/2024 - 11/2024)
- Developed a blog platform using React, allowing users to create, read, and interact with blog posts. Implemented state management, routing, and styled components. Learned how to structure a React project efficiently and handle user-generated content.

Eccomerce Website (09/2024 - 10/2024)
- Created a fully functional React-based e-commerce website with product listings, a shopping cart, and user authentication. Learned how to manage global state using context or Redux, handle payments,

Task's Managment App (10/2024 - 10/2024)
- Designed a React-based management app for task tracking and organization. Implemented CRUD operations, data persistence, and role-based access.

Burger Crafting App (08/2024 - 09/2024)
- Developed a Burger App using React, allowing users to customize their burgers and place orders dynamically.

Real Estate Data Analysis Project (10/2024 - 12/2024)
- Developed a data analysis project focused on real estate trends by scraping data from Yahoo using Python.

Charity Website (11/2024 - 11/2024)
- Developed a responsive web platform for an NGO, facilitating seamless communication, donation management, and event organization.

WORK EXPERIENCE

Self-taught
Workplace/Company

08/2022 - Present
Achievements
- Studying Computer Science in my third year at university while actively enhancing my skills through self-directed learning. Completed various programming courses to deepen my knowledge in web development, data analysis, and machine learning. Gained hands-on experience by building real-world projects using React, Angular, and Python, applying both theoretical and practical concepts.

SKILLS

HTML 5 · CSS 3 · JavaScript (ES6+) · React · Angular · Redux · Responsive Design · Tailwind CSS · Bootstrap · Material UI · Styled-Components · OOP · SOLID · PHP · C# · Python · Java · Git · Teamwork · Problem Solving · Multitasking · MY SQL · .NET · Skill

CERTIFICATES

CS50's Introduction to Computer Science
An introduction to the intellectual enterprises of computer science and the art of programming in an online course from Harvard.

LANGUAGES

English
